

### **STUD SERVICES/MATINGS TERMS AND CONDITIONS:**

- 50% of Service fee due at time of mating or (booking – if mating to occur at a future date).
- 50% of Service fee due once female is scanned 60 days positive.
- Greygum Alpacas will provide free agistment to females left for matings at their Kialla property up until 60 day scan or 60 days post last spit off date.
- Alternatively reverse mobile matings available on our property at Kialla.
- Greygum Alpacas management highly recommends that clients who service females have them scanned at 60 days at the client's expense. Payment for services carried out is expected either after this 60 day scan or 60 days post last spit off date should the client choose not to scan.
- Greygum Alpacas advises clients to check female pregnancy status regularly after the 60 day scan to ensure progress and prevent disappointment.
- Live cria guarantee applicable for 48 hours after birth. Any live cria guarantees apply to the original female owned by the original client unless otherwise agreed by Greygum Alpacas
- A4 details supplied (to the owner of the alpaca at time of mating) once full payment is received.
- Should a female fail to get pregnant due to potential fertility problems Greygum Alpacas will allow the client to change the female to another in their herd therefore the 50% deposit will be applicable to the replacement female. The 50 % deposit will only be refunded if Greygum Alpacas feels the booked service is unattainable and sufficient proof of negative pregnancy is presented from an independent veterinarian.
- Greygum Alpaca services are non transferable therefore only apply to the original female and owner at time of mating unless circumstances are agreed by Greygum Alpacas.
